# ID | Infinity Drain

FTSG 65 Series
Side Outlet

- **FTSG 6524 - 24" Complete Kit**
- **FTSG 6532 - 32" Complete Kit**
- **FTSG 6536 - 36" Complete Kit**
- **FTSG 6542 - 42" Complete Kit**
- **FTSG 6548 - 48" Complete Kit**
- **FTSG 6560 - 60" Complete Kit**

Features

- Side Outlet with centered outlet location
- Indoor or outdoor use
- 7 gauge - 3/16", 304L stainless steel grate
- 16 gauge, 304L stainless steel channel
- Pre - pitched channel
- NOT Site Sizable™

- Compatible with: liquid applied or fabric sheet membranes
- Flow rate - 9 gpm per outlet
  - Flow rate measured at outlet only. Measurement does not account for water in channel or sheeting on shower floor.
  - Additional outlets can be added and combined into a larger waste line to increase flow rates

Care & Maintenance

FTSG 65 stainless steel linear drain top grates are made of 304L stainless steel. This material is non-porous, hygienic, rust-free and extremely durable. Bar Keepers Friend® and Soft Scrub® are commonly available products that can be used to protect and clean your Satin Stainless drain cover. For stains that have been left for an excessive amount of time, stronger cleaning agents such as Steel Brite® may be needed. For Polished Stainless and other finishes we recommend a mild soap and a soft cloth for cleaning. DO NOT use any abrasive cleaners, scrub pads or allow household cleaning agents, such as bleach, to sit on the drain cover for a long period of time. Stainless steel does not rust. External factors, such as contamination from other highly ferrous metals, built up road salt, sea salt, or chlorine may have caused "surface" rust which can be removed using Barkeepers Friend®, Soft Scrub® with Bleach, or Steel Brite® . Always follow the directions on the bottle. Follow proper maintenance procedures to prevent excessive surface rust. In areas of frequent exposure to salt, chlorine, and other chemical compounds,   maintenance of the stainless grates should be performed at least 2-3 times per year.
