

FTTIF 65 Side Outlet Series

- FTTIF 6532 - 24" Complete Kit
- FTTIF 6532 - 32" Complete Kit
- FTTIF 6536 - 36" Complete Kit
- FTTIF 6542 - 42" Complete Kit
- FTTIF 6548 - 48" Complete Kit
- FTTIF 6560 - 60" Complete Kit

Features

- 2" Centered no hub side outlet
- Indoor or outdoor use
- 16 gauge, 304L stainless steel tile insert frame and channel
- Pre - pitched channel
- Grate can be removed for cleaning
- NOT Site Sizable™
- Compatible with: liquid applied or fabric sheet membranes
- Flow rate - 9 gpm per outlet
 - Flow rate measured at outlet only. Measurement does not account for water in channel or sheeting on shower floor.
 - Additional outlets can be added and combined into a larger waste line to increase flow rates

Installation

Care & Maintenance

FTTIF 65 stainless steel linear drain top grates are made of 304L stainless steel. This material is non-porous, hygienic, rust-free and extremely durable. Bar Keepers Friend® and Soft Scrub® are commonly available products that can be used to protect and clean your Satin Stainless drain cover. For stains that have been left for an excessive amount of time, stronger cleaning agents such as Steel Brite® may be needed. For all finishes we recommend using mild soap and a soft cloth for cleaning. DO NOT use any abrasive cleaners, scrub pads or allow household cleaning agents, such as bleach, to sit on the drain cover for a long period of time. Stainless steel does not rust. External factors, such as contamination from other highly ferrous metals, built up road salt, sea salt, or chlorine may have caused "surface" rust which can be removed using Barkeepers Friend®, Soft Scrub®, or Steel Brite Cleaner. Always follow the directions on the bottle. Follow proper maintenance procedures to prevent excessive surface rust. In areas of frequent exposure to salt, chlorine, and other chemical compounds, maintenance of the stainless grates should be performed at least 2-3 times per year.
