Architectural Drainage Solutions

The background is a grayscale image of a marbled surface, possibly stone or paper, with intricate, vein-like patterns. A dark, perforated metal strip runs diagonally across the lower half of the image. The strip has a regular grid of small circular holes. A thin black vertical line is visible on the right side of the image.

# Where **Art** Meets **Science**

## **About Us**

We exist to elevate the everyday through our architectural drainage solutions. Whether it's a calming shower, an exciting rooftop bar or a relaxing backyard pool oasis, our drainage solutions provide function and beauty to elevate any space.

For us, elevating the everyday also means caring for our local community. Our nonprofit, Mission Belly Full, is committed to the fight against food insecurity and prepares over 500 meals a week in our onsite kitchen to support ten local organizations.

## **Our Brand**

We pioneered linear drains in the USA over 15 years ago and we continue to innovate. Each one of our drainage solutions is developed by our engineering team with optimal performance and beautiful design in mind. The result is a product line with an unparalleled number of grate styles and finishes that are compatible with any type of installation for the ultimate flexibility of design. From our expert technology team to our responsive customer service team, we are committed to the success of every project.

## **Made in the USA**

We source all our raw materials from US suppliers and manufacture all our products at our facility on Long Island, New York. Our commitment to being American made means limitless custom capabilities, fast turnaround times, and a personal approach to quality. Transparency and sustainability are the other anchors of our production philosophy, and we love giving factory tours.

# NEW PRODUCTS

## **NEW** Adhesion Grate Design

The Adhesion linear drain is inspired by the science of adhesion, where water droplets stick to a variety of surfaces to form unique patterns. To develop this abstract aquatic visual, the Gensler design team started by pouring water on a selection of luxurious surfaces to observe how the droplets moved and gathered. The modern pattern that evolved from this exploration has an even distribution of irregularity to create a look that's at once random and precise. While the connected dots are present throughout the pattern, the repeat is masked to prevent a tiling effect.

## **NEW** Elevator Drains

- 316L stainless steel 3mm Wedge Wire grate
- 16 gauge, 304L stainless steel channel
- 4" centered outlet
- Channel height: 3"
- Channel width: 12"

Prevents water from entering elevator shafts in the event of a fire or when the sprinkler system is triggered. It is typically positioned in front of the elevator door or elevator bank.

- Complies with SFFC Code, Section 511.1 for a 100 GPM flow rate
- Meets ADA and heel-proof requirements. IAPMO tested and certified to a 100 GPM flow rate
- Complies with California Building Code 3007.3 and 3008.3 and NYS Building Code 3007.3 and 3008.3
- Available in 36", 42" and 48" kits in Satin Stainless and Polished Stainless finishes
- Custom sizes available
- Elevator drain grates are removable for accessible cleaning and maintenance
- Tamper resistant fasteners and mounting anchors options available

## CUSTOM STAINLESS STEEL SHOWER BASE

Infinity Drain's Custom Stainless Steel Shower Bases simplify shower installation and save time on the job-site. Backed by a lifetime waterproofing guarantee, each base is flood-tested in our Amityville, NY facility and comes primed ready to tile. Available with drain options in multiple finishes.

**Covers labor, removal, replacement and restoration**

- Lifetime guarantee against waterproofing failure
- 304L 16 Gauge Stainless Steel
- Ability to install and flood test same day
- Ensures exact wall-to-wall and flush against the wall installation
- Available with curb or barrier free (curbless)
- Drains are available in multiple styles and finishes

# CUSTOM FABRICATION

If you can imagine it, we can manufacture it. Infinity Drain offers a variety of customized drainage solutions to your exact specification. Customize length, outlets, configuration, styles, and finishes. Please call or email [quotes@infinitydrain.com](mailto:quotes@infinitydrain.com) for pricing and availability.

## Next Day Custom

- Purchase orders and sign offs received by 10am ET will ship the following business day
- Completed custom form must accompany purchase order
- Straight configuration and custom lengths up to 96"
- Grate Styles: Wedge Wire, Offset Slotted, Tile Insert Frame
- Installation types: Fixed (FX), Fixed Flange (FF), Flanged with Schluter®-KERDI (FCS), and Double Water-proofing (FCB)
- Custom outlet placement for multiple outlets
- Finishes: Satin Stainless, Polished Stainless, Oil Rubbed Bronze, Satin Bronze and Matte Black

## Standard Custom

- Purchase orders and sign offs received by 10am ET will ship within 15 business days
- Completed custom form must accompany purchase order
- Straight configuration and custom lengths up to 96"
- Any standard grate style options
- Installation types: Fixed (FX), Fixed Flange (FF), Flanged with Schluter®-KERDI (FCS), and Double Water-proofing (FCB), Tapered Threaded (FCH), Side Outlet (FT), Side Outlet with Schluter®-KERDI (FTS), and Side Outlet Tapered Threaded (OCH)
- Custom outlet placement for multiple outlets
- Available in all ten finishes

## Custom-Custom

- Specialty installation options (Sink drain, Elevator drain, Threshold drain, Vinyl Clamp drain, etc.)
- Any shape and configuration
- Any installation type
- Any outlet type
- Any finish. Standard finishes and color match finish options available.
- Length up to 300"
- **For quotation, lead time, and drawings contact us at [quotes@infinitydrain.com](mailto:quotes@infinitydrain.com)**
