

FCSAS 100

Flange with Schluter®-Kerdi Series

- FCSAS 10032 - 32" Complete Kit
- FCSAS 10036 - 36" Complete Kit
- FCSAS 10042 - 42" Complete Kit
- FCSAS 10048 - 48" Complete Kit
- FCSAS 10060 - 60" Complete Kit

Features

- FCS series linear drains are compliant with Schluter®-Kerdi shower system warranty. Warranty back by Infinity Drain.
- Channel provided with factory applied Schluter®-KERDI
- Indoor or outdoor use
- 12 gauge, 316L stainless steel grate
- 16 gauge, 304L stainless steel channel
- Pre - pitched channel
- Grate can be removed for cleaning
- NOT Site Sizable®
- Compatible with: liquid applied or fabric sheet membranes
- Flow rate - 21 gpm per outlet
 - Flow rate measured at outlet only. Measurement does not account for water in channel or sheeting on shower floor.
 - Additional outlets can be added and combined into a larger waste line to increase flow rates

Installation

Care & Maintenance

FCSAS 100 stainless steel linear drain top grates are made of 316L stainless steel. This material is non-porous, hygienic, rust-free and extremely durable. Bar Keepers Friend® and Soft Scrub® are commonly available products that can be used to protect and clean your Satin Stainless drain cover. For stains that have been left for an excessive amount of time, stronger cleaning agents such as Steel Brite® may be needed. For all finishes we recommend using mild soap and a soft cloth for cleaning. DO NOT use any abrasive cleaners, scrub pads or allow household cleaning agents, such as bleach, to sit on the drain cover for a long period of time. Stainless steel does not rust. External factors, such as contamination from other highly ferrous metals, built up road salt, sea salt, or chlorine may have caused "surface" rust which can be removed using Barkeepers Friend®, Soft Scrub®, or Steel Brite Cleaner. Always follow the directions on the bottle. Follow proper maintenance procedures to prevent excessive surface rust. In areas of frequent exposure to salt, chlorine, and other chemical compounds, maintenance of the stainless grates should be performed at least 2-3 times per year.
